ABTA BACK ZIONIST CHILD KILLERS ! BOYCOTT ABTA

THE OUTRAGEOUS decision by the Association of British Travel Agents to hold their 1988 convention in Occupied Palestine, is facing a growing challenge by the newly founded Campaign for Palestinian Rights (CPR).

The CPR, which has welcomed offers of active support from *NFN Supporters' Units* all over Britain, has been holding a series of local pickets outside travel agents which belong to ABTA.

They have been calling on members of the public to book their holidays with non-ABTA agents, until ABTA agrees to hold their convention elsewhere.

And until that association publicly admit that its plans to support the Terror State of Israel,

are an insult to the Palestinians, struggling for basic democratic rights in their own land, the pickets will continue with growing momentum.

STORMY MEETING

Meanwhile, the pro-Zionist bosses of the Association of British Travel Agents are also coming under increasing pressure from their own members. At a stormy meeting of the Executive of ABTA's South

Eastern group, the majority recommended a boycott of the controversial Jerusalem trip. Only 4 of the 73 agents present said they would travel there.

The regional chairman, Mr. Brian Cooke (of Downham Travel in Bromley, Kent) supports the provocative plans.

The drive to avoid the bad publicity and other problems the plans will inevitably bring, was led by the deputy chairman, Mr. Geoff Bingham (of Travel Quest in Seaford, Sussex).

ARROGANT

ABTA's director-general, Mr.

David Epstein, is a staunch supporter of the Terrorist State of Israel.

He arrogantly dismissed the wishes of a large number of his members. *"The meeting is going ahead. We are going to Jerusalem. We will cancel only if, at the time, there is a threat of war, or a massive explosion."*

But what he fails to point out is that by going to such an unstable area of the world in the first place, he will personally be putting his members at immense risk.

And it doesn't end there. For ABTA always heavily push the country where they hold the convention through their travel agents the following year.

This means a welcome boost to the economy of the Terror State, and more repression, suffering and atrocities for the native Palestinians.

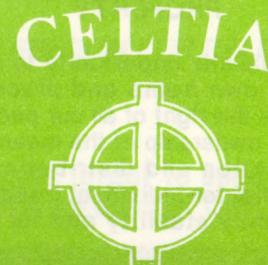

IMMENSE DANGER

And much nearer to home it means that ABTA will be hounding innocent British holidaymakers to go on a Terror Tour which they may not come back from. ABTA could be responsible for the deaths of innocent men, women and children from this country.

The Organizers of the *Campaign for Palestinian Rights* hope that the pressure from their first publicity drive will force ABTA to reverse their obnoxious decision.

This would be a victory not only for the long suffering population of Palestine, but also for international law and human rights.

It would certainly be a big slap in the face for the Zionist warmongers who bury Palestinian youths alive with bulldozers, shoot pregnant women and douse young children in petrol before setting light to them!

HOME AFFAIRS, ANALYSIS & COMMENT

SEPARATE OUR SCHOOLS!

"THE PARENTS HAVE HAD ENOUGH"

A PARENTS' REBELLION is underway in Newham, East London, over the enforced teaching of ethnic minority faiths to White children in the area. They are petitioning local education chiefs demanding Christian-only lessons for their children.

The row over religious education at Vicarage Junior and Infants school, Vicarage Lane, East Ham, began last November. Five year old Robert Gordon was kept at home by his courageous parents after he was made to take part in celebrations of the Hindu festival of Diwali without their permission.

TYRANNY

Last month the family moved to Wales to take their son away from the East London multi-racist tyranny. But the row goes on. Sixty parents held an emergency meeting at the school. Parent governors issued a statement which said:

"It is time for the authority to let schools get on with their proper job. That is to educate children in accordance with the wishes of their parents."

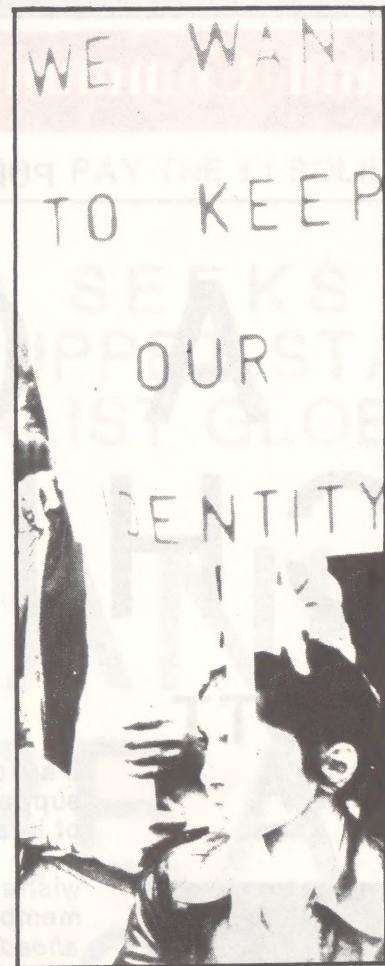

One parent governor went further: *"The parents have had enough. We want children brought up in the Christian Faith."*

"My daughter is coming up to 11 and she still doesn't know the words of the Lord's Prayer. The situation has got to change."

She went on to add that *"the parents of ethnic children are embarrassed by the amount of teaching of non-Christian faiths. Everyone is together on this question."*

JOINT CAMPAIGN

The same area of East London is also seeing growing demands from Moslem and Hindu parents for non-Christian schooling for their own children. Clearly the attempt by the State and liberal teachers to impose multi-racism is being rejected. A joint campaign by parents of different races for the right to set up segregated schools for their own children is now becoming a real possibility. And there is little doubt that such a campaign, when it comes, will win!

THE FAMILY UNDER ATTACK

'WOMEN'S' groups have been out and about lately demanding *"a fair day's pay for a fair day's work."*

But this isn't a campaign in support of rights for women who are forced to go out to work to make ends meet.

These women want to be paid for cooking, cleaning and mothering!

If this wasn't such a sad reflection on the state of our society it would be laughable.

It's only a matter of time before these people start demanding bulk payments for having children in the first place, if they're not already.

But fortunately when

WOMEN AND KIDS TO GO BACK DOWN THE MINES

THATCHER'S VICTORIAN VALUES

THE GOVERNMENT is using the excuse of "fighting sex discrimination" to scrap legislation preventing women and children from being put to work down coal mines. Employment Secretary, Norman Fowler, is drawing up a Bill which will scrap some of the most basic improvements in working conditions won by years of campaigning last century.

A few clauses stopping pregnant women being sent down the pits will survive. But all the other hard fought for safeguards will go in the drive to create a heartless but profitable free-for-all in the jobs market.

The Bill will also repeal most of the restrictions affecting young people working in factories, shops, mines and quarries. The current legislation deals with 16 - 18 year olds. It limits hours and times of work, weekend work and nightwork. It also sets minimum meal and rest breaks and holidays.

This will not only lead to a return of exploitation not seen for a hundred and forty years. It will also hit the studies of young people, so that education standards in Britain will fall even further.

That's what they mean by Victorian values!

CANCER

THE number of children suffering from rare forms of cancer in the North West of England has more than doubled since the 1950's. This is the worrying conclusion of a report in the top medical journal - *The Lancet*.

The researchers, from Manchester's Children's tumour registry and Christie hospital, examined the records of all children in the region who were found to be suffering from malignant growths before their fifteenth birthdays.

They found that the number of cancer victims increased from 16 between 1954-64, to 26 between 1965-75, and to 37 between 1976-86. They refused to comment on any possible link with the 1957 Windscale/Sellafield fire, Britain's worst nuclear accident.

But Dr. Jillian Birch and Dr. Valerie Blair gave a heavy hint in that direction by saying that *"we suspect an increased exposure to environmental carcinogens during the period of study."*

THATCHER'S FREE-MARKET FASCISM

FINAL PLANS are now being made for a massive State computer system which will link the records of the Home Office, Inland Revenue, Customs and DHSS. Known as the Government Data Network (GDN), it has already been labelled 'Big Brother' by worried civil rights groups.

The government claims that the aim of the GDN is simply to share equipment between the departments in order to keep down the cost of computerization. Peter Brooke, the Paymaster General, has defended the proposals by saying that the GDN involves sharing computer resources, rather than actual data exchange.

THE TRANSFER OF INFORMATION

But he went on to mention that data is owned by the relevant department, which could authorize transfers of information. As he coyly put it: *"If the need were to arise later, the GDN could be used for inter-departmental transfers."*

And of course, other departments and State Agencies could be linked into the Government Data Network, once people get used to the idea. The police National Computer complex

at Hendon is due to be replaced and updated shortly.

NFN believes that the equipment chosen for this will be completely compatible with the rest of the Government Data Network.

ALREADY LINKED

Police records are already linked with the vehicle licencing computers at DVLC Swansea/Abertawe. This gives the police automatic notification of where every vehicle owner in the country actually lives. Just imagine putting that information together with tax, travel and welfare, health and social records.

All they'll have to do then to complete the Big Brother Network is to add the records of purchases through the credit card system and continue the drive to phase out cash transactions wherever possible (*"in order to reduce theft and fraud"*).

The police have a phrase for this drive towards Big Brother - they call it *'Social Control'*. The rest of us must grasp the real name of the destination of the Thatcherite State - *'Free Market Fascism'*.

WHERE WE STAND

NATIONAL FREEDOM

Britain is a family of Nations - England, Wales, Scotland, Kernow, Mannin, Eire and Ulster - linked by blood and history. The peoples of all nations have an inalienable right to self-determination and to preserve their native cultures and traditions. We look forward to the day when Eire voluntarily rejoins the future federated British family of nations.

RACIAL SEPARATION

Race is the main determining factor in nationality. Racially mixed societies cannot form one nation and are therefore unstable.

No one race is 'superior' to others, but they are all different. Racial integration threatens all races. Humane repatriation is better for us all than endless repression and racial violence.

SOCIAL JUSTICE

The nation is a great family. Every member of our national family has the absolute right to care at the nation's expense when young, sick or old. There must be equal opportunity for all, but unearned privilege for none.

WELL DISTRIBUTED PROPERTY

The realistic opportunity to own one's own home and place of work is the right of all our people. Direct ownership of the means of production and distribution is essential for individual freedom, for family stability and for the

best use of our national resources.

SANITY IN FINANCE

The right to create the credit needed by the economy must belong to the people's government. The banks, which have usurped this right, must be stripped of their unjust gains and power. The National Debt is based on usury and must be repudiated.

RESPECT FOR NATURE

We hold the environment in trust for future generations. Pollution of the land, sea and air, and of the gene pool through radiation, is a betrayal of that trust.

DIRECT DEMOCRACY

Parliamentary representation is a fraud. Party rule is a cloak for the

dictatorship of vested interests and media bosses. Government must be in the hands of the people themselves, through new information technology, and the election of delegates to carry out their wishes. Power must be devolved to the lowest possible level.

THE ARMED PEOPLE

The freedoms given by these principles must be defended through armed neutrality, with well-equipped national defence forces involving the entire adult population. Power, wealth and arms in the hands of the people!

REVOLUTION NOT REFORM

These changes cannot be brought about by tinkering within the System, or by relying on the System's own institutions, such as parliament, schools or the

courts. They can only spring from a National Revolution. This revolution must begin in the hearts of individuals, then spread by their example to involve whole communities in revolutionary structures such as alternative councils and schools, neighbourhood patrols and self-help groups. Once we cease to depend on the institutions of the old State, it will be swept aside.

THE THIRD WAY

The growth of these ideas in nation after nation shows that a new force is rising in the world for the 21st century. Leaving behind the sterile hatreds of Capitalism and Communism, this *Third Way* offers a real future for all our peoples. We urge all those who agree with these principles to join with us in the struggle to build the National Front - the Movement of the Future.

ENEMIES OF CULTURE

One of the foundation stones of nationhood is culture. This includes the knowledge, art, law, beliefs, morals, customs and aspirations of a society. Without a culture, a nation ceases to exist.

Today, in all parts of Kurdistan, Kurdish culture and identity is being suppressed and eliminated as part of an imperialist assimilation programme.

When Turkey emerged as a State for the Turks, a Turkish official proclaimed "How happy I am to be a Turk." These words became etched into Kurdish minds. Inevitably, those who were not Turks - the others - began to feel their 'otherness' strongly.

HUMAN RIGHTS

This otherness is mainly cultural and a series of State decrees followed which attempted to destroy Kurdish folk memory.

Language, music, customs, songs and ceremonies such as weddings and condolence rituals have all been banned. A journalist who visited Turkey in June 1987, as part of a human rights mission investigating the situation in Kurdistan, wrote of a typical Kurdish experience in a Turkish prison.

The Kurd was told by the prison guard: "You are now a Turk. You will forget Kurdish. We will educate you and make you fit for society."

And in Iraq - a State created by the British - Kurdish is banned by the Ba'ath regime. The same regime that started the futile war with Iran. The Ba'athists are a small but powerful minority in Iraq, backed by the USA, but they ruthlessly dominate every aspect of life in that country.

RACISM

Despite promises of returned respect for the Kurdish majority, things have deteriorated to

racism against the Kurds.

Kurdish schools have been closed and native folk music, dances and books have been banned. But the Kurds have been fighting back bitterly. For in the liberated areas of Iraqi Kurdistan an encouraging cultural revival is taking

* Mustapha Barzani. The untimely death of this heroic Kurdish leader in 1979 was a sad blow to the resistance.

REBIRTH

BLACK MUSLIMS COMBAT DRUGS NIGHTMARE

THE drug culture in Washington, North America has become a real life nightmare for its inhabitants. So far this year alone over one hundred drugs related murders have been reported.

Drug dealing is mainly concentrated in the Black ghettos of north-east Washington where the hopelessness and despair felt by Blacks is played upon by the barons of the organized drugs rings.

WEALTH

The wealth available to anyone wishing to act as pushers for these criminals is often irresistible, especially amongst the young.

One fifteen year old was recently found in possession of \$4,500 in cash, three guns and hundreds of bags of crack. A thirteen year old drugs dealer was found to have on a bullet proof vest, and he needed it for shootings are common between the rival drugs gangs and dealers.

Children have to be kept indoors when not at school to protect them from other youngsters who can earn as much as \$3,000 (£1,580) a day by trading in \$25 bags of crack.

Although the police in the area know exactly what's going on they have

been either helpless or reluctant to get involved. But help is on its way!

In one drugs-ravaged housing estate called Mayfair Mansions the local residents decided to act themselves to end their living nightmare. They called in the Black Muslims of Louis Farrakhan's *Nation of Islam*.

And it didn't take long for their calls for help to be answered. Disciplined squads of neatly dressed Black Muslims have been staging 24 hour a day patrols in the neighbourhood. And the results have been amazing.

In only a few days the dealers have all hastily disappeared from the area, scared stiff of meeting with the natural justice of the *Nation of Islam*.

IN DEMAND

The dealers have moved to other areas of Washington, but the Black Muslims have found themselves in demand throughout the city. They have quite rightly become heroes not only amongst the Blacks but also with

published by Kurdish organizations controlling the area, and a dozen newspapers and periodicals have also been established.

And perhaps more importantly a radio station has been set up and is busy transmitting Kurdish songs and poetry, whilst playwrights are once again coming forward to help the rebirth of their culture.

NF News looks with encouragement to the Kurdish nationalists, fighting to preserve their unique way of life. And we wait eagerly for the day when the right of small nations to exist becomes a reality and not just a slogan.

many Whites. And they've even been praised by the city's mayor and the police force!

Armed only with truncheons and the spirit to succeed against the gun-totting drug gangs, **NF News** salutes the courage of those comrades in North America and their determination to destroy the scourge of drugs that afflicts both our communities so badly.

AFGHANS CAUSE SOVIETS TO PULL OUT

AT the time of going to press the Soviet war machine is at long last pulling out of Afghanistan after eight brutal years of occupation.

In that time they have completely failed to stifle widespread Afghan resistance despite annihilating whole villages. And they have suffered constant military defeats at the hands of the heroic Mujahideen.

PUPPET REGIME

In the process of fleeing they are leaving behind their puppet regime in Kabul. **NF News** predicts that this will last as long as Thatcher touring a dole queue!

THE WOMEN IN BLACK

OPPOSITION to the Zionist State in occupied Palestine is growing all the time from inside Israel. In our last issue we reported how the Orthodox Jewish group *Neturei Karta* were combatting the Zionist regime.

Now **NF News** is pleased to be able to praise another mainly Jewish group who oppose the Terror State.

The *Women in Black* as they are known can be found demonstrating outside the Jerusalem office of Israel's terrorist Prime Minister, Shamir, every Friday afternoon. This group of mainly young Jewish women all dress in Black - the traditional colour of mourning.

Many of them are involved in the *Dai I' Kibbush* (End the Occupation) group, and for the last four months have been demonstrating by holding large banners written in Hebrew, Arabic and English.

The banners proclaim: "Stop the Killing, Beating and Tear Gas" and "End the Occupation."

WORLD AFFAIRS, ANALYSIS & COMMENT

AMERICAN INDIANS UNDER ATTACK !

ANCIENT RELIGIOUS CEREMONIES held by American Indians are the latest casualties of the ruthless destruction of forests in the search for a fast buck. The U.S. Forest Service plans to build a massive logging road through the centre of a centuries old sacred Indian site at Chimney Rock in the 'high country' of northern California.

The land is covered with giant Redwood trees and is used by three Indian tribes for spiritual development, communication with the 'great creator' and rituals which they deem essential to the welfare of their people.

SUPREME COURT

The Yurok, Karok and

Tolowa tribes took their case to the Supreme Court, arguing that their sacred site should be protected under the Constitution's freedom of religion clause. But a majority of the nine judges involved showed once again that the Supreme Court is just a tool of the government and the super rich by rejecting this plea. They ruled that the

Constitution provided no protection against "the incidental effects of government programmes."

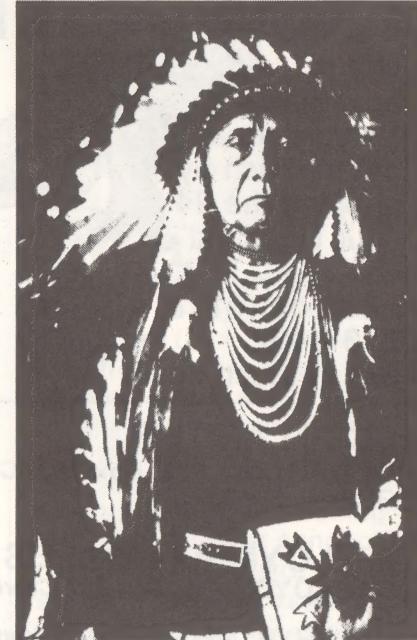

For the minority, Justice William Brennan said that the majority decision had reduced the Indians' religious freedom to "nothing more than the right to believe that their religion will be destroyed."

GRAVEST THREAT

The ruling had left "native Americans with absolutely no

constitutional protection against perhaps the gravest threat to their religious practises." It "sacrifices a religion as old as the nation itself along with the spiritual well-being of its approximate 5,000 adherents."

Once again we see how money is put before the environment. And once again the Indians learn that they can expect no justice or respect for their religion from the materialistic society run for rich Whites from Washington DC.

KANAK MILITANTS FIGHT BACK AGAINST FRENCH IMPERIALISM

KANAK NATIONALISTS in the French Pacific territory of New Caledonia are facing brutal repression at the hands of more than 7,000 French troops and paramilitary police.

The Kanaks have watched in despair as 30 years of enforced French and Asian immigration have turned them into a minority in their own land. But since the immigrants are all allowed to vote, and as the territory is absurdly classed as "part of France", there is no legal or political action they can take to defend their identity.

MILITANTS

Groups of young militants have therefore been forced to take up arms to exercise their natural right to preserve their culture and nationhood. In response, the French government has flooded New

Caledonia with security forces - one heavily armed man for every four adult Kanaks - to protect its imperialist exploitation of the country's vast nickel deposits and its nuclear tests in the Pacific.

LE PEN

Meanwhile, back in France, Jean-Marie Le Pen and his Front National have been arguing that the French cultural and national identity are being destroyed by immigration. Quite true of course, but Le Pen is also the first to call for even tougher measures against the Kanaks to stop them complaining about exactly the same thing.

This shows quite clearly that Le Pen is not a principled racial separatist, but a racist bigot. Not a nationalist, but a shallow jingoist. Not an alternative, but a Capitalist safety valve.

The National Front in Britain may share the same name with Le Pen's organization. But the similarity ends there!

BRITISH INEFFICIENCY OR STATE INTERFERENCE ?

Once again we are forced to apologise to readers for the late appearance of our last issue. Readers will remember that our previous issue was held up due to the gross inefficiency (?) of the company supplying our Desk Top Publishing System on which NFN is produced.

Our last issue was produced on schedule but had to be sent to the printers by a national delivery service as no one was available to hand deliver it. This was then stolen/switched and our printer received a package containing a raincoat! NF officials eventually managed to track down the missing paper and it was printed after a two week delay.

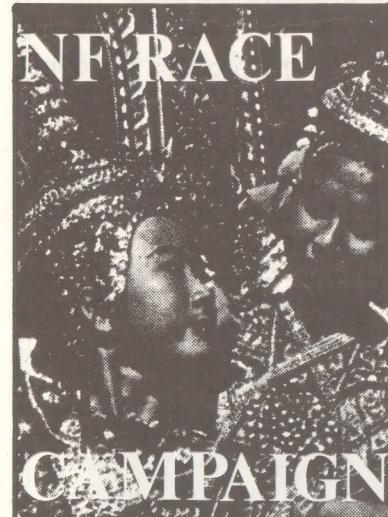

The NF have been put to a lot of trouble and expense over this episode and the company concerned can be assured that we will be claiming compensation for every penny that their gross inefficiency or co-operation with Special Branch has cost us.

DISCLAIMER

THE NATIONAL DIRECTORATE of the NATIONAL FRONT wishes to make it clear that the *Flag* and *Vanguard* are not National Front Publications. They do not reflect NF policy or strategy and do not speak for the National Front.

They are produced by a small clique of reactionaries, thieves and drunks, expelled from the NF in 1986. Officials are reminded that both publications and their editors are proscribed. Members of the public are warned that the NF cannot be held responsible for money lost on subscriptions to the *Flag* and *Vanguard* when they cease publication.

FEATURE : RACE CAMPAIGN PHASE 3 - CONTACT

The National Front launched a massive Race Campaign at the end of July 1987. The first two stages: "Racialism not racism"; and "Race Attacks - Who is to Blame?" have been successfully completed and have helped to begin to change our negative image considerably. The third and final phase of this mammoth campaign "Contact" is now possible.

RACIAL PRIDE WORLD WIDE

WOULD THE REAL NF STAND UP ?

THE MEDIA IMAGE

AS part of a rearguard action by the hard left, against our advances amongst sections of the intelligentsia and media, a turgid and highly predictable report by Leeds Trades Council was recently hawked amongst elements of the press.

The report "Terror on the Terraces" was primarily aimed at pinning the blame for football violence and racist chanting at games on the shoulders of the NF. The 'evidence' as usual is no more than the presence of *NF News* sellers outside Elland Road!

NOTHING NEW

This 'evidence' is nothing new of course as similar claims have been made before and have been shown to be completely false. But then the NF has been a convenient scapegoat for simple or mischievous minds for a long time.

The Popplewell enquiry and the intense investigation by Liverpool police into the Heysel Stadium tragedy, along with many other official reports, have cleared the NF

from having any involvement with football hooliganism.

But the enemies of nationalism have long tried to associate our movement with football hooliganism, amongst other things, in an attempt to criminalize us. This would then give them the opportunity to legally repress and even ban the NF. And no one would care because no one likes football hooligans or other criminal elements in society.

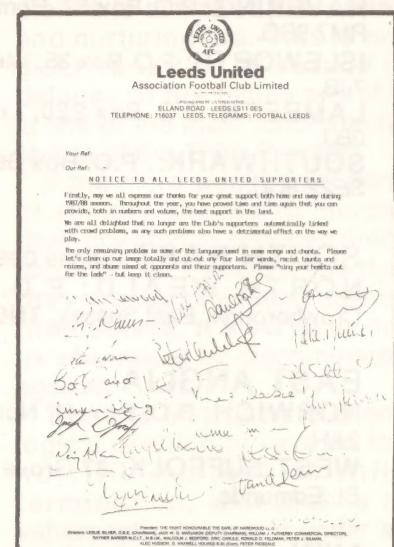

PRESSURE

Under pressure from the report and the city council, the majority of Leeds United FC have signed a letter condemning certain chants, and this quite rightly includes racist abuse. Although its aim, we are told, was to attack the racist element it concentrates on foul language and mentions

race almost incidentally.

This is in stark contrast to our local supporters promotion of the anti-Race Attacks leaflet which has been widely distributed in Leeds. Nevertheless, some of the less scrupulous press hinted that the letter was aimed at the NF.

Right: The letter given to fans at Elland Road recently.

THE REAL IMAGE

IN an ironic twist however, on the same night that the leaflet was handed out to fans attending a Leeds home game, members of the local NF unit were present at the foundation of an Islamic society!

In the heart of Chapletown, where even the police fear to tread, delegates from the Leeds unit of the NF were invited to observe a meeting of a new Islamic group.

In front of a packed audience (95% being Black or Arab) an Iman spoke about the meaning and role of Islam.

STRONG ATTACKS

Of special interest to us

were his strong attacks on Capitalism, Communism and Zionism. He also took the opportunity to condemn the growing drugs trade which afflicts Britain.

The Iman also referred to the welcome moral changes within the National Front and touched upon the Philosophy of our Third Position: our support for those Middle-East nations opposing Superpower continued on next page

Left: Two Separatists display an Iranian newspaper at the meeting in Leeds.

Right: An NF official and a Black Separatist greet the Chairman of the meeting.

influence; our social radicalism; and support for separatism.

Not surprisingly, more than a few eyebrows were raised! At

the close of the meeting local NF members mingled with the rest of the audience and took part in extremely useful discussions on the merits of

the Third Position.

At long last we can sincerely say that we are beginning to break down the imposed barriers between the races

and have made a lot of new friends in the process.

And we are confident that this event will become an important milestone in the

struggle against our common enemies and the building of a separatist alliance. Something that our detractors boasted was impossible!

FEATURE : CAMPAIGN FOR PALESTINIAN RIGHTS

THE CAMPAIGN FOR PALESTINIAN RIGHTS got off to an excellent start at the end of April. ABTA travel agents who support the Zionist terror State in occupied Palestine have found potential revenue from holidaymakers drift away as pickets mount effective local campaigns nationwide.

Although the mass media has attempted to ignore the campaign, articles about the CPR have appeared in the Daily Telegraph and throughout a worried Jewish press, as well as in local newspapers.

The travel trade press and ABTA regional conferences have become a battleground in heated exchanges between the anti-Zionist small retail outlets and their pro-Israeli bosses who have the support of the large travel agent chains.

Further recent developments since the start of the CPR campaign have seen the Arab-British Chamber of Commerce exerting pressure on ABTA and some of its agents to call off their obnoxious plans, and representatives of the PLO have met with ABTA officials to discuss the trip!

BLACKPOOL

Several members of the Blackpool NF unit took part in the local CPR picket at its launch.

We covered two pro-Zionist ABTA shops on the first day and plan to help out the CPR with more of our activists helping as the pickets spread to more shops.

At one of the shops we were so successful that the manageress was forced to put a huge sign in the window stating: "No Security with a non-ABTA Agent", but it didn't seem to do any good because they still didn't get any customers! And we even had three members of the public come and join the picket for a short while.

At the other shop, Tower Travel on Lytham Road, CPR activists were threatened by the Zionist manager but he had second thoughts after they took his picture. After only a few minutes one of his friends - an Inspector from the local police - arrived. No doubt they both belong to the same masonic lodge! But they didn't stop the picket.

SHREWSBURY

A group of four NF activists joined a Campaign for Palestinian Rights demo in the ancient city of Shrewsbury, at the start of the ABTA campaign. Three ABTA travel agents' shops were picketed, with leaflets protesting at ABTA's planned Israeli conference being given to everyone entering the shop.

The manager of one shop came out and asked us to leave. He was told politely but firmly that it was a perfectly legal picket and that it would go on until the point had been made. If he lost business as a result he had only the leaders of ABTA to blame.

Three people who read the leaflet were sufficiently shocked to learn of ABTA's insensitive plan, that they agreed to go to a non-ABTA agent and see if they could book a satisfactory holiday there instead.

Members of staff at the other two shops also came out for a leaflet. There is no doubt that every such incident puts added pressure on ABTA to cancel the Israel conference, so although there has been no press coverage so far, the campaign in the area will continue.

PRESTON

In Preston we had a CPR picket outside a Lunn Poly shop as Lunn Poly support the pro-Zionist trip. We attracted quite a bit of attention from shoppers who could see our placards from the other side of the shopping centre. After about half an hour we were moved off by Security Guards because we were on private property, but we managed to get our message across to people.

We were also interviewed by Red Rose Radio.

NOTTINGHAM

We joined in a CPR picket held outside Wilson's Travel Agents (a member of ABTA), Arnold, Nottingham.

Part of the way through the demonstration the manager of Wilson's Travel approached us, generally friendly, and minutes later the law arrived in the same manner, therefore creating no problems. Everything went according to plan.

We engaged a mixed reaction from the public in general, even so, all our leaflets were dispersed.

We later sent in a press statement to one of the local papers.

MORE REPORTS & PICS NEXT ISSUE

HAVERING

Members of the Havering NF unit joined in pickets organized by the *Campaign for Palestinian Rights* in Romford and Upminster.

In Upminster we picketed Chandler's Travel, a shop owned by the ex-Chairman of ABTA. Naturally, he wasn't very pleased about it!

In the Romford picket, the CPR concentrated on the Thomas Cook chain of travel agents who have taken a pro-Zionist stance.

In both towns we received a sympathetic response from passers-by who took leaflets and had been attracted by our placards on which we reproduced the front of the CPR leaflet "Terror Tours."

BURNLEY

In Burnley, eight NF activists joined in CPR activities at the start of the campaign to pressurize ABTA into calling off their proposed trip to the racist State of Israel.

We had an extremely successful day although we received no local publicity from the media.

At one shop which was picketed by six CPR supporters, the manageress who "couldn't care one way or the other about the trip" became hysterical when she realized the consequences of her statement.

After realizing that we weren't going to be intimidated by her shrieks, she wasted no time in calling for the police. A WPC eventually arrived and tried to persuade us to leave. But after being told that she had no legal jurisdiction to move us on or arrest us as we were not breaking any laws she called for reinforcements.

In a matter of seconds about 8 members of the heavy squad turned up initially looking for trouble. But after explaining exactly what we were doing and our legal rights they became quite sympathetic!

By this time a huge crowd of shoppers had gathered round listening intently to our case.

Eventually the police moved us on after receiving orders from above and said that if we

didn't move they would arrest us. When we pointed out that any charge they brought against us would be laughed out of court they stated: "It wouldn't get that far."

But when we were moved on it was only fifteen minutes before the travel agent closed and we had been there all afternoon. In that time they didn't get a single customer.

Elsewhere in Burnley the CPR had equally successful results.

LEEDS

On Saturday 30th April activists from the Leeds Campaign for Palestinian Rights demonstrated outside the city centre offices of the ABTA affiliated travel agents Nielson Travel, Boar Lane, Leeds.

The CPR activists held placards stating "ABTA ignores Zionist violence against Palestinian children!" and handed out leaflets explaining their case. The police were called but after seeing the peaceful nature of the picket decided to take no action.

A muslim supporter of the CPR bore the brunt of abuse from a female Zionist who told the CPR activists that "you should be shot." Isn't the deaths of hundreds of Arab infants enough for this Zionist vampire?

QADHAFI, ULSTER AND THE IRA

In recent months the British media has given much coverage to the relations that exist between the Provisional IRA and Colonel Muammer Qadhafi. Given the recent television interview where the Colonel confirmed his support "for the Irish political struggle", it is hardly surprising that a number of *NF News* readers have written to ask how it is that we can promote the sale of the *Green Book*, whilst at the same time take a strident anti-IRA position.

Firstly, it needs to be made clear that the NF does not support Colonel Qadhafi as an individual, rather we support the broad principles of the International Third Position which he has ably explained in the *Green Book*. Thus the NF is fundamentally concerned with Ideas not Personalities. The fact that we consider Qadhafi to be a man much maligned by the pro-Zionist media in this country is, in a certain sense, irrelevant although it is clearly a factor in wider political questions.

We have no hesitation in saying that Libyan support for the IRA is wholly misplaced, but no one involved in activist politics can fail to notice that the IRA draws support not only from Libya, but from many Communist, Middle Eastern and Third World countries, as well as a host of movements throughout the Western world including most genuine nationalist groups in Europe. How is it then that the IRA has come to gain such widespread support? The answer is simple: PROPAGANDA.

ALL THINGS TO ALL MEN

The IRA have poured a vast amount of time, effort and money into producing propaganda that is swiftly distributed all over the world, and is translated into literally dozens of languages by sympathizers. Wherever there have been international conferences, representatives of the IRA have been present. At Socialist gatherings they have emphasized their 'Socialist credentials'. At Marxist gatherings they have emphasized their 'Marxist credentials'. And at nationalist gatherings they have emphasized their 'nationalist credentials'. In a word, they have been all things to all men, and with consummate skill they have reaped enormous benefits - moral, political and financial.

Their task has been made a million times easier by the virtual silence of the Loyalist bloc. Who has propagated the loyalist viewpoint outside Ulster? Where has it been propagated? The fact remains that the case for Ulster is not even widely known on the British mainland, let alone throughout the world. So is it all that surprising that an Arab leader, thousands of miles away, having to overcome the barriers of language and culture, and been given only one side of the story, supports the IRA?

Confronted by this virtually global support for the IRA, the NF can take one of two positions: we can either break off relations with every group around the world which supports the IRA, or we can fervently propagate the case for a Third Way for Ulster, and seek to persuade these people that they are wrong to support the Provos. The first approach will leave the NF totally isolated, and more importantly, will result in no one hearing the case for Ulster Independence. The second will be extremely difficult because we will be fighting years of sophisticated propaganda and prejudice, but it is the only way to make known the truth about Ulster. By this method of discussion and analysis, the NF has already begun to break down the support of European nationalists for the IRA. The steps taken are small, but they are the start of a process that needs to be extended to all movements of goodwill which mistakenly support the IRA.

IMMENSE AMOUNT OF SENSE

Colonel Qadhafi talks an immense amount of sense on Capitalism, Communism, Zionism, racial separation in the USA and the need for a Free Europe. He is clearly an intelligent man who, once he is presented with both sides of an argument, will choose correctly. He cannot be realistically blamed for not having heard the highly elusive loyalist case. No, that blame lies with the likes of Molyneaux and Paisley who have done the work of the British State, and marched the Ulster people into a political cul-de-sac without sympathy.

We will not continue their failed methods. Ulster has a case - Independence. We are putting that case to anyone and everyone who will listen because it is a persuasive case based on Truth. Has anyone a better way of really safeguarding Ulster?

DEAR EDITOR

FEDERALISM

Dear Editor,

I write in respect of the excellent statement of NF ideals entitled *Where We Stand* which has appeared in recent issues of *NFN*.

Under the heading *National Freedom*, the statement reads: "Britain is a family of Nations - England, Wales, Scotland and Ulster - linked by blood and history. The peoples of all nations have an inalienable right to self-determination and to preserve their native cultures and traditions".

However, as we believe in a form of Federal government for the nations that constitute the British Isles, surely we should include Kernow

(Cornwall), Mannin (Isle of Mann) and Eire (Ireland).

All are separate and distinct nations in their own right and boast a rich Celtic culture and heritage. In addition, Kernow and Eire have their own languages.

However, in recognizing Eire's nationhood, it is hoped that she would reciprocate and recognize Ulster's right to self-determination. An imperialist Eire can have no place in a future federal Britain - she should drop her territorial claims over Ulster now!

Yours,
JF, Co. Antrim, Ulster.

Editorial Comment

Point taken! This has now been corrected.

ATTEMPTED MURDER

Dear Sir,

I do believe that the publishing of questions relating to the political training of Cadres and Candidate Cadres in *NF News*, (issue no. 102) was a rather pointless and in some ways self-indulgent exercise, as well as a possible security danger.

The main aim of *National Front News* is that of a 'street paper' which is designed to win general public support for the movement and recruit new members. The questions published in that issue harp back at events some two years ago, and all Cadres and Candidates should by now know all the facts relating to this episode in the movement's history 'off by heart'. These questions should not have therefore appeared in the movement's main propaganda organ.

While writing on this particular subject, I trust that the book *Attempted Murder* will have by now been updated, especially in relation to the answers to questions 7 and 8 of the Thematic Questions.

I was pleased to read in a recent issue of *Nationalism Today* a very well researched article on the history of 'Bulldog' and the drunken fraud Joe Pearce. *Attempted Murder* only briefly touched

SHOCKING THE BIGOT BRIGADE

Dear NFN,

The last paper I received presented a cover that I never thought I would see! It is a good sign that our repatriation stance is now being recognized by Black Separatists. I should imagine that the 'Bigot Brigade' are in a state of shock.

On an environmental note, I saw that a small condemnation was made about the use of aerosols for spraying varnish (issue 100). I think that more should be made of this subject - even to the extent of encouraging nationalists to refuse to use spray cans. The environment issue should always be

CHILD MURDER

Dear NFN,

In issue 104, T.W. argues that it is wrong to call an embryo a child when dependent on its mother's body. He goes on to state that this makes the fetus part of the mother's tissue.

Perhaps he would like to consider the following scientific fact: During pregnancy termination, when the abortionist's instrument first touches the uterine wall, the embryo immediately recoils and the heart rate increases. The unborn child's heart has formed and is functioning by the 18th day after conception. Does this not show a real sense of fear present in all living creatures? A lump of meat or tissue has no such feelings!

Those who hold a sympathetic view of child termination take a totally hypocritical stance. For instance, brain waves are amongst the legal criteria from which life or death are determined. How can people declare an accident victim suffering from serious head injuries dead when no ascertainable brain waves exist, and yet maintain that an unborn child is not alive when it has brainwaves?

Only a few short years ago scientific equipment could only detect brain activity at about the seventh and eighth month. Due to technological advance it can now be detected at seven weeks! Who is to say that further advances in technology will not prove that a child is alive from the moment of conception?

Similarly, many people are dependent for life support. The unborn are dependent on the nourishment they receive from their mother's womb, whilst many people are dependent on such things as kidney dialysis machines and respirators for their life. Surely compassion - a basic human quality - should be shown to all those in need or unable to fend for themselves, or is it a case of 'out of sight - out of mind'?

I also fail to see how the NF's anti-abortion policy is class discriminatory. Our stance is aimed at preserving and nurturing life. This is not discrimination. We stand in defence of the family and this is one of the most fundamental tenets of the Third Position.

If the more wealthy sections of society choose to murder their children in private clinics abroad, then I would argue that they are discriminating against themselves. It's certainly not us who would be discriminated against.

There is only one moral and logical position to take on the horrific subject of child termination, and that is to vehemently oppose it under all circumstances.

Yours,
M.F. Norwich.

member gave a very informative talk on dealing with State Repression, based largely on his own experiences with the sharp end of the Northern Ireland Office, the mercenary RUC. This provoked a lively discussion. Delegates from Newtownabbey and Portadown gave interesting reports on progress in their areas.

The next speaker stressed the urgent need to step up the Ulster propaganda offensive, urging greater production of local leaflets, and wider circulation of *National Front News*. He drew lessons from the Republican movement's success in this area. In closing the seminar, the Ulster Press Officer spoke on the related subject of relations with the press and media.

The NF's Central Ulster Executive is planning more seminars for later this year, including a joint one over the Twelfth period for local NFN Supporters and mainland volunteers.

A Central Ulster Executive

Show us the colour of your money!

THE ULSTER NF has launched an appeal for its biggest ever publicity and recruitment drive. They plan to produce 100,000 leaflets for distribution over the July 12th celebrations.

The total collapse of the Unionist campaign against the Dublin/Westminster diktat has left a political vacuum in the loyalist community. This makes it an ideal time for a really big drive to build support for independence as the only way to bring democratic government and peace to Ulster.

But an effective campaign can only take place if the Ulster NF can raise £250 over and above their normal income, by 21st June, and time is short. The Ulster Central Executive and key officials there have therefore asked *NF News* to spearhead the drive to raise this urgently needed money through a special Ulster Fund.

BATTLE OF THE REGIONS

NORTH - EAST WEEK OF ACTION

BETWEEN the 8th - 13th February many thousands of "Louis Farrakhan - He Speaks for his People - We Speak for Ours" and "Racial Attacks - Who is to Blame" leaflets were distributed throughout the North East of England.

Chester-le-Street, Hartlepool, Middlesbrough, Newcastle, Durham and Consett, as well as surrounding villages such as Chilton, Ferryhill, Shildon and Spennymoor, were all leafleted door-to-door by NF members living in those communities.

Already feedback from the leaflets has led to the setting up of new units in Hartlepool and Middlesbrough. (A new joint address for both units will be announced in the near future in *NF News*).

HOSTILE MEDIA

The media in the region were as usual hostile to the movement, but this sign of growing strength combined with ideologically sound, well presented literature, led to some interesting media responses.

The *Hartlepool Mail*, for instance, quoted from a 10 year old copy of the defunct race-hate rag *Bulldog*, as if

the nonsense contained within it was representative of the movement today, whilst in the same article they 'accused' us of admiring the "lunatic" (sic) nationalism of people such as Muammer Qadhafi of Libya.

The *Chester-le-Street Post*'s front page looked like a mid 1970's 'throwback', and so it went on.

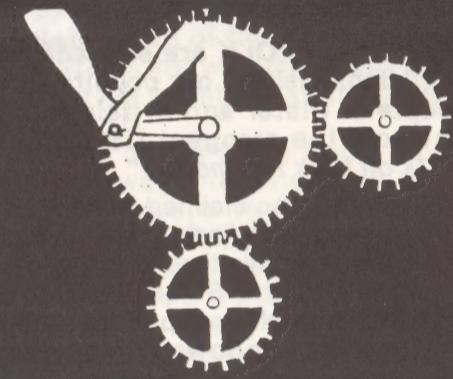

However, we must remember that for the first time ever in the North-East we were able to counteract some of this, and that for the many thousands of people who read our message first hand, the media lies and half-truths wouldn't have cut much ice.

Due to the success of this first 'Week of Action', a new poster has been produced in the North-East, and the region is being radically re-structured and decentralized. This will improve efficiency and revolutionise the amount of propaganda being distributed.

WHAT IS TO BE DONE ?

THIS COLUMN keeps all Movement officials well informed of vital organizational tasks.

All officials and activists must read this column as soon as they receive a new paper - and ACT on the information here.

NWA VIDEO

Units: Why not buy a copy of the new NWA video to show at your unit meeting and also hire out to members. You should already be holding regular video evenings to raise funds. These are always enjoyable and profitable events, and are simply organized. At your next unit meeting why not hold a raffle on behalf of the Technology Fund or NWA.

CAMPAIGNING FOR PALESTINE

All NF units should copy the text of the following press statement onto their unit notepaper and release it to their local media:

THE CAMPAIGN FOR PALESTINIAN RIGHTS (CPR) is stepping up its campaign to persuade travel agents to boycott the ABTA annual conference in Israel, and to ensure that the businesses of ABTA members who oppose the trip do not suffer due to the stubbornness of their executives.

Individual ABTA members in a number of towns and cities have already been contacted by the CPR asking for an assurance that they will not attend the conference if it does go ahead in occupied Palestine.

NFN Supporters' Units which are supporting the work of the CPR will be doing the same thing over the coming weeks.

FREEDOM FOR PALESTINE !

ENDS

Don't forget to send frequent up to date reports and photographs of CPR activities to *NF News*.

AMERICA SEEKS A UNITED IRELAND PUPPET STATE FOR ITS IMPERIALIST GLOBAL AIMS:

YANKS THREATEN ULSTER

WE ULSTERFOLK are sick and tired of know-all American politicians visiting our country. It's not surprising that many people in Ulster and Britain felt sympathy for the soldier who told the arrogant US Congressman Joe Kennedy to "F**k off back to America."

Kennedy, who claimed that he was on a 'fact-finding' visit to Ulster, spent his time in the company of the SDLP. He travelled the well worn path of the horrific rundown Divis Flats area, totally ignoring equally atrocious loyalist areas nearby.

At the end of his visit he made a vicious attack on the "British occupation of the North of Ireland." For Kennedy and his ilk, the Ulster nation, like the Palestinian nation, does not exist! He has increased his standing among the anti-British bigots of the Irish-American lobby in this election year.

UNDIGNIFIED SCRAMBLE

Yes, the great circus of the American Presidential election is on the road again. As in previous occasions, there has been an undignified scramble among the hopeful candidates for various 'minority' votes, principally the powerful Israeli and Irish republican lobbies. The Democratic Party 'golden boy', Michael Dukakis, has outdone Kennedy by declaring his support for the full implementation of the discriminatory anti-Protestant 'MacBride Principles' by US companies in Ulster.

SUBVERSION

In the meantime, America continues its subversion and interference in the internal affairs of nations throughout the world. Recently we have seen blatant attempts by the

USA to overthrow the Panamanian government, to intimidate tiny Nicaragua and to deliberately provoke all-out conflict in the Persian Gulf with the Iranians.

American involvement in Ulster is less blatant, but nevertheless poses a real threat. *National Front News* (issue 86) has already exposed how John Hume's SDLP has been financed by the US government's so-called 'National Democratic Institute for International Affairs' since 1985.

The USA has also given extensive support to the Anglo-Irish Agreement which still imposes SDLP policy on the people of Ulster. The eventual aim of the United States is a 'United Ireland' which would be a fully integrated member of NATO. Leading SDLP members have indicated that they would welcome such a role.

"WE WELCOME NATO"

Sean MacBride, the author of the 'MacBride Principles', was the originator of this scheme as far back as 1949 when he was Eire's Foreign Minister. Then he said, "We welcome NATO and would be greatful if we could find ourselves in a position to give it unqualified support."

His price was Ulster on a plate. MacBride was a former IRA Chief of Staff and like many other 'ex-terrorists', he held the Nobel and Lenin Peace prizes. He died earlier this year but his NATO master

plan and his pernicious principles live on.

Ulster loyalists must realize that the major threat to our freedom is not only from the murderous butchers of the IRA. The Eire establishment, the Westminster treason regime and the smooth talking SDLP and their Yankee backers are just as much our enemies.

Independence is the only way that Ulster can break free from their objectives. The alternative is extinction!

History, Identity, Culture

THE *TAIN BO CUAILGNE* is one of the greatest examples of European literature. It tells of the invasion of Ulster - in the first century AD - by the combined armies of Ireland, led by Queen Maeve of Connacht (Connaught).

(Although the *Tain* wasn't written down until the eighth century, it still remains the earliest epic in European literature. The story being preserved orally by the Druids and then written down centuries later by Christian monks.)

The *Tain* tells of how an important fair was being held in Ulster. During a chariot race at the end of the day the King's chariot and horses won. When the crowd said that no-one could beat the King's horses, one man boasted that his wife could. The King immediately sent a messenger to fetch her, and when she protested that she was pregnant, she was told that her husband would be killed if she didn't come. So she went to the fair but her labour pains gripped her. She threatened that a long-lasting evil would descend on the whole of Ulster if they didn't wait until her child was born, but the crowd insisted that she race.

She did so, and as her chariot reached the end of the field she lay down and gave birth to twins. Hence the name, *Emain Macha* - The Twins of Macha. (Emain Macha, now known as Navan Fort, still remains as a huge earthwork, situated just outside Armagh city. Emain Macha was the capital of Ulster for centuries until its downfall in about 450 AD.)

As she was giving birth she screamed out that all who heard that scream would suffer the same pangs in their times of greatest difficulty, and that this curse would be carried on to other generations. Any Ulsterman suffering from this curse would have no more strength to fight than a woman on her labour bed. The only people not effected would be the women, the young boys and Cu Chulainn.

So, when Queen Maeve and the 'men of Ireland' attacked Ulster, all of Ulster's warriors became afflicted with the 'pangs', and Cu Chulainn - the Champion of Ulster - had to defend his country alone until the sickness had passed.

The *Tain* is important not only as a great masterpiece of European literature, but also because it demonstrates that Ulster - even as early as the first century AD - was seen as an independent and separate nation, quite distinct from the rest of the island of Ireland.

The next issue of *NFN* will focus on one of the ancient heroes of Ulster, Cu Chulainn - The Hound of Cullen.
